

Tournament Expert

Complete Golf Tournament Software

Tournament Expert's Sierra is a full-featured, windows based golf tournament management system. The system creates beautiful scoreboards, cart signs, scorecards, proximity markers, reports and posters that may include as many logos of different shapes and sizes as desired. Sierra also includes electronic scoring display capability that has leaderboards that look like those on TV.

Tournament Expert also offers Internet Signup and Tournament Results Posting and this year its software is **GHIN** Compatible (direct lookups, view last 20 scores, find any valid GHIN number, and scheduled auto-updates).

Sierra provides many features that help prepare each tournament's player list: drag & drop pairing, handicap calculator, sophisticated sorting, hole assignments, tee time assignments and flight and team number assignments.

Sierra's scoring module calculates winners in formats such as Best Ball, Individual play, Skins, Callaway, Jack & Jill, Stableford, Scramble and Pinehurst. The scoring module includes 5 live summary leaderboards and many detail leaderboards that display immediate results.

Tournament Expert Sierra includes:

- Internet Signup and Posting
- GHIN Compatible – Direct **GHIN** Lookup – Scheduled Auto Updates
- Tee Sheet and Event Import – **ForeTees** and **Buz Software**
- Drag & Drop pairings.
- Presentation Leaderboards with sponsor logos and images
- Unlimited logos on print outs.
- Use any font or color in displays and print outs.
- Pari-Mutuel with real time odds display
- Handicap, tee time sheet and **Excel** imports
- A sophisticated, accurate Scoring Module with many tie-break options
- Open ended decision making (change tournament setting at any time)

Tournament Expert is committed to providing excellent service to its clients. We listen carefully to our customer's suggestions and add features frequently.

Demo software is available.
